Dear Mr. Crapo:

On August 21, 2001, we sent you a letter inquiring whether you wished for your Notice case file UTU-072892 to remain open. You responded on September 4, 2001, that you had paid your yearly fees to the Utah Division of Oil, Gas, and Mining, and that you would like the case file to remain active.

On April 2, 2002, a surface compliance inspection was conducted at the site, located in T. 17 S., R. 13 W., Section 1. The inspection revealed that no activity has taken place at the site for at least two years. Therefore, in accordance with the Utah BLM 3809 Manual, we are requesting that you reclaim the disturbance.

Please be reminded that by January 20, 2003, you are mandated by the new 43 CFR 3809 regulations to provide a reclamation bond for the site. The bond must be in an amount sufficient to reclaim all mining activities proposed under your Notice. If you wish to modify your Notice, the changes must be in compliance with the new 43 CFR 3809 regulations that took effect on January 20, 2001, a copy of which was sent to you on April 5, 2001. There has since been a slight modification to these regulations. If you wish for a copy of the modified regulations, or have any questions, please feel free to contact Jerry Mansfield at (435) 743-3125.

Sincerely,

Rex Rowley
Field Manager
